👤 PROFILE

A dynamic **Sr. Oracle Developer** with over **4+ years of hands-on experience** in the full **Software Development Lifecycle (SDLC)**, specializing in **Oracle APEX, SQL, PL/SQL Development, and Oracle Forms & Reports**. Proven expertise in **analysis, development, implementation, testing, and team management** within enterprise-level environments. Strong background in designing, developing, and maintaining applications using **Oracle APEX (Application Express)**, with a deep understanding of **Oracle 11g, 12c, 19c databases**, advanced **PL/SQL programming**, and Oracle's standard built-in packages.

👛 PROFESSIONAL EXPERIENCE

Mar 2024 – Present
Lahore, Pakistan

Style Textile Pvt. Ltd. (Lahore, Pakistan) ✎

Sr. Software Engineer

Design, develop, and maintain Oracle APEX applications, Forms, and Reports to meet business needs. Create efficient PL/SQL packages, optimize performance, and ensure data security with role-based access. Develop interactive dashboards, user-friendly forms, and parameterized reports while resolving technical issues and supporting upgrades.

Jun 2023 – Mar 2024
Lahore, Pakistan

DG Khan Cement Company. (Lahore, Pakistan) ✎

Assistant Manager Oracle Apex Developer

Develop and maintain Oracle APEX applications, Forms, and Reports with optimized performance and secure backend integration. Create user-friendly dashboards and forms, troubleshoot issues, and support upgrades to ensure seamless functionality and best practices.

Dec 2020 – Jun 2023

SABROSO (Sabirs' Group). (Lahore, Pakistan) ✎

Software Developer

As an Oracle Developer, responsible for assisting in the development, maintenance, and enhancement of applications using Oracle APEX, Oracle Forms, and Oracle Reports. Involved in creating interactive, user-friendly dashboards, data entry forms, and generating operational and analytical reports to support business processes.

Work collaboratively with senior developers and functional teams to gather requirements, understand system functionalities, and implement backend database logic using Oracle PL/SQL. Participate in troubleshooting application issues, performing data analysis, and resolving technical problems to ensure smooth and efficient application performance.

Assist in integrating applications with secure and optimized backend databases, following best practices in database design and coding standards. Contribute to system upgrades, testing activities, and routine maintenance to support application reliability and continuous improvement.
